

## JOIN OUR ADVOCACY INITIATIVE

Women's Health NSW has developed an advocacy initiative dedicated to generating support for **adequate funding increases of every Women's Health Centre in NSW**. We'd love for you to participate in this action with us.

This year, Women's Health NSW created a Pre-Budget Submission that outlines the urgency for and benefits of increasing WHC funding to at least \$1M per centre, per year. With the NSW State Government budget announcement quickly approaching, our goal is to make it clear that the funding of these life saving services should have been a top priority for more than 30 years.

**Download infographics, social media content and other resources to share on your platforms via our website.**

## Community Action Creates Change!

We have three easy goals to create public awareness and conversation;

**Generate signatures on our petition**

**Encourage your network to write their State MP's**

**Motivate conversation on your online platforms**
